## Rust Has Made Little Headway on Prairies and Prospects are Rosy

**Infestation Not Extensive, Weather Conditions Not Favoring Further Development of Blight—Hay Crop Best in Years Throughout West—Livestock Thriving on Splendid Pastures**

Winnipeg, Aug. 1.—About 90 per cent of all crops are fully headed, reports the Canadian Pacific Railway Department of Agriculture, abundant moisture enabling it to fill out well. Harvesting will not be general until the last of August even under most favorable conditions. While rust is evident in a few districts, infestation is not serious or extensive, and weather conditions are not favoring further development. Crop pests apart from a few indications of sawfly are entirely absent. Sweet clover is now being harvested and is an excellent and abundant crop, while hay is the best in years. Livestock are thriving on splendid pastures in every province. All coarse grains are making good progress with a promise of yield exceeding last season's though later sown.

**Alberta's Fortnightly Report**  
(Issued by Department of Agriculture, Government of Alberta, Edmonton, July 30, 1927.)  
Crops all over the province have made steady progress during the past two weeks and continue to give promise of the greatest harvest Alberta has ever reaped, according to the information reaching the Department of Agriculture. Wheat is practically 100 per cent in head, the same is the case with barley, and oats are reported to be from 60 to 75 per cent headed out.

Hot weather during this period has assisted materially in the growth of the crops, and with occasional showers the moisture stored in the ground is considered in most districts to be sufficient to carry the crop to maturity, and all grain in head is filling rapidly.

Harvesting of rye has commenced in a number of districts in the south of the province and a splendid yield is reported. Fall wheat has made especially good progress and promises a heavy crop. It is reported as unlikely that harvesting of wheat will be all at general until possibly August 20th. A number of rather severe hail storms have done considerable damage in scattered districts, but these generally have been purely local in character and their effect on the total yield of grain from the province will not, it is expected, be a serious one. Practically no injury to crops from insect pests is reported and no frost is reported as yet in any section of the province.

The area in the south and south-east of the province reports prospects of the heaviest crop in a number of years and that conditions are ideal for filling and ripening. Sugar beets and the second cutting of alfalfa are making rapid growth and so far very little irrigation has been necessary.

While more warm weather would be beneficial, crops in the Peace River and Grande Prairie districts are giving promise of a better than average yield, particular improvement in this season as compared with last year being noted in the case of the cut

crop, and all grains show a uniformly good vigor and color.

A start has been made with haying in many sections of the province and a good crop of both wild and cultivated hay is being put up. Dairy men and ranchers report that pasture growth is rank and that all livestock is in good condition.

**Prepare 40,000 Grain Cars**  
Winnipeg, Man., July 29.—When western Canada is ready to ship its 1927 grain crop the Canadian National railways will be ready to carry it. Wheat is well headed out, rye is ripening, and it is only a matter of weeks before the threshers will be busy. The railways will not be taken unawares. For the past six weeks the Canadian National has been moving box cars into the grain country, and still they are coming. No less than 35,000 have been scattered all over southern Manitoba, southern and northern Saskatchewan and Alberta, and they are being sent out at the rate of 100 a day. Before the movement ceases, there will be at least 40,000 cars waiting ready to carry away the harvest. At this time, estimates of the 1927 crop must be too conjectural for usefulness, but Canadian National railway officials state that if 40,000 cars are not sufficient for the grain that will be taken off the land through which their lines pass, more will be provided. Every car is inspected and carried at Winnipeg before going to its destination. Engines and cabooses will also be available in the necessary numbers. It is announced.

In the meantime, last year's grain is still being moved out at the rate of 100 cars a day. This is chiefly grain marketed by the farmers, as the elevators are practically depleted. The new grain year commences Monday, August 1. Preparing for the handling of the crop in western Canada is one of the most important tasks the railway has to face in its manifold activities, and the placing of cars at the points where they are most needed calls not only for a knowledge of conditions, but for the equipment and for the ability to dispose of it to the best advantage. The Canadian National is ready for the harvest.

While it does not give, as can be seen, an accurate forecast of the crop, it is interesting to note that 40,000 cars with an average capacity of 1,350 bushels of grain, represent 54,000,000 bushels.

**MANY FATAL ACCIDENTS**  
Toronto, Aug. 1.—Drowning and motor car accidents took a toll of twelve throughout Ontario over the weekend. Three young men, a small boy and a baby girl were the drowning victims, while two men and three women and a small boy and girl were victims of automobile accidents.

## LLOYD GEORGE APPEARS SOMEWHAT PESSIMISTIC

Cambridge, England, August 2.—The Geneva conference has been conducted to an inevitable fiasco, declared former Premier Lloyd George, speaking at the Liberal Summer School here Monday. He said he hardly cared to dwell on the possible effects of failure of Great Britain to come to terms with the United States on the ship-building program, but he hoped it would not be the beginning of rivalry which would alienate the two great nations, "on whose good will and co-operation the peace of the world depends."

## HON. C. STEWART ADVOCATES COAL AS POWER SOURCE

**Electrical Power Can Be Secured Thus Just as Cheaply as From Water Power, He Claims**

Winnipeg, Aug. 1.—Development of electrical power from coal is cheaper than from water power, is advocated for Alberta by Hon. Charles Stewart, Minister of the Interior, who passed through here Sunday en route to Ottawa.

Discussing the Alberta Spray Lakes power site, Mr. Stewart thought that Alberta would be much farther ahead to develop electrical power from coal since there are such quantities in the province. Electrical power, he said, could be manufactured just as cheaply from coal as from water power, and would provide more employment. Also would not spoil any of the natural beauties of the approach to the Banff National Park.

Mr. Stewart expressed optimism concerning the present crop outlook in the west. "Crops are wonderful, especially in Alberta and Saskatchewan," he said.

## Camrosian to Face Several Charges Here

**Arson, Perjury and False Pretences Among Allegations Made—Eighteen Counts Registered Against Peter Schick**

Peter Schick is in trouble again. He was requested at Camrose on Saturday after being committed for trial on 18 charges of fraudulent practice and perjury, the new charge being a double one for arson. A preliminary hearing on the arson charges is to be given him in Camrose on Friday.

Magistrate Jackson heard the case on Saturday, with J. H. Frawley acting for the crown and J. Adam for the defence. Schick was remanded for trial by the supreme court at its September sitting in Wetaskiwin.

The arson charges are for burning the garage of the Camrose Auto Supplies company at Camrose on February 2 and burning the dwelling of Frank W. Schmidt, also at Camrose, on January 2. Two preliminary charges, representing in all 23 different charges, had been for raising money by fraudulent transactions in the sale of motor cars, perjury, and false pretences.

A number of fires having occurred under suspicious circumstances, in which at various times automobiles, and at other times buildings, had been destroyed, the provincial fire commissioner's office started an investigation, the result of which is that what seems to have been a thoroughgoing system of burning up cars or businesses and collecting the insurance has been operating for Schick some time past. It is alleged. A number of his transactions were financed by the Continental Guaranty corporation of Montreal, which, together with the insurance companies, is taking a close interest in the progress of the case. Fire Commissioner Bruce and Robert Hoo, special investigator, have secured a mass of evidence, including on the part of the arson and fraudulent charges.

## DECREASED OUTPUT OF FACTORY CHEESE

**Canadian Industry Showed Big Falling Off During Year 1926, Increase in Four Provinces**

Ottawa, Aug. 1.—The total quantity of Canadian factory cheese in 1926 was 170,637,781 pounds, valued at \$28,873,100, a decrease in quantity from the preceding year of 6,505,332 pounds, and a decrease in value of \$7,788,396. The average price per pound at the factory dropped from 16.85 cents in 1925 to 16.30 cents in 1926. Prince Edward Island, Ontario, Manitoba and Saskatchewan recorded slight increases in production, while the other provinces show decreases. Exclusive of British Columbia, average prices ranged from 15.51 cents per pound in Prince Edward Island to 15.87 cents in Alberta. The average price in British Columbia was 34.07, but this is accounted for by the fact that the production of cheese in that province is not large and consists chiefly of special varieties prepared for sale in small sized packages.

Dr. Gordon Thompson, of Harlequin, died at Wetaskiwin on Sunday, after a few hours illness with spinal meningitis while being taken to an Edmonton hospital.

Hobbs Indians are at the Lacombe fair this week a hundred strong. They staged one of their old-time pow-wows Wednesday under the direction of Chief White Weasel.

J. J. Borseth, east of Wetaskiwin, who has been spending some time with friends in Wisconsin, returned to the district a few days ago. He is now a greater booster than ever for Central Alberta.

Mr. and Mrs. W. N. Brown, who were married a couple of weeks ago, arrived in the city a few days ago after spending a brief honeymoon. Mr. Brown is the accountant in the Bank of Montreal.

Rev. Appelt has been invited to preach at the annual mission festival at Didsbury on Sunday, and will be absent from the city for the week-end. On Sunday, August 14, Zion Ev. Lutheran congregation will celebrate its annual mission festival. Rev. Boettcher, of Stony Plain, will deliver the address in the morning and Rev. Appelt takes charge of the afternoon service. An English mission sermon will be preached at 7:30 by Rev. J. Ohlberg, the new minister for Brightview and Peace Hill. Rev. Ohlberg is expected to arrive in Wetaskiwin about the 12th of this month and will be installed in Brightview and Peace Hill by Rev. Appelt on the 21st.

## WETASKIWIN HEAVY ON THE WET IN JULY

Official readings credit Wetaskiwin with a rainfall of 4.75 inches during the month of July, while for the corresponding period of last year only 1.09 inches were recorded. Speaking of Wetaskiwin, it was heavy on the "wet" last month.

## CITY HOSPITAL WAS CROWDED DURING JUNE

Sixty-two Patients Admitted During the Month, There Being Twenty-nine Operations Performed—Resignation of Miss Anderson Accepted With Regret

A meeting of the City Hospital Board was held in the council chambers on July 13, with Mr. Moon in the chair.

After the minutes were read and adopted the resignation of Miss L. Anderson, undergraduate on the staff was accepted with regret. Miss Mary McGarrihy has been appointed to fill the vacancy.

The auditor reported that 62 patients had been admitted during the month of June and that there had been 29 operations, 6 deaths and one birth. Accounts amounting to \$624.53 were passed for payment.

Mrs. C. S. Hogan and Mr. R. Balling were appointed as the visiting committee for the month. The meeting adjourned.

## Town Topics

Mr. and Mrs. Danielson, of Salvador, Sask., are visiting at the home of Mr. and Mrs. E. Lundell for a few days.

Mrs. Jas. Vickers returned from a visit to Calgary the first of the week and is now at the camp at Pigeon Lake.

Mrs. Thos. Smith, of Port William, who has been visiting her brother, R. Hawkins, for a few months, has returned east.

W. E. Blandford, of Hamilton, Ont., who is touring the west, is spending a few days visiting his sister, Mrs. R. C. Walker.

Mrs. W. J. McPhee and daughter Ethelva, returned home on Saturday from a short visit to Southern Alberta and Saskatchewan.

Miss Ruth Alderman, who has been visiting her father and friends in Wetaskiwin, returned to her home in Edmonton last Friday.

Mr. and Mrs. J. L. Marshall and family left on Monday morning for Sylvan Lake, where they will spend a couple of weeks' vacation.

Miss Florence Crawford of Edmonton, is spending a couple of weeks at the home of Miss Lillian and Mabel Thompson, north of the city.

The Norwegian Lutheran Ladies' Aid will meet at the home of Mrs. L. Pelland, 5-12 miles south-east of town on Friday, August 12, at 3 p.m.

Mr. and Mrs. J. R. Rodgers passed through the city Monday morning on their way back from Calgary. Mr. Rodgers was a competitor in the Herald Golf tournament, and in the final game was only beaten by one in extra play.

On an official inspection of the district around Prince Albert and Wetaskiwin, J. S. Thompson, commissioner of irrigation and chief engineer of the Waterpower and Reclamation Branch, left Calgary on Monday by car. He will be absent from the city for some time.—Alberta.

**HARRY LAUDER'S WIFE DEAD**  
Doomed, Scotland, Aug. 1.—Lady Lauder, wife of Sir Harry Lauder, the famous Scotch comedian, died Sunday in a Glasgow nursing home. Sir Harry, who is here, is prostrated with grief. Lady Lauder was 58 years of age. Her maiden name was Annie Vallance. She was one of a family of 17, and both her parents are living.

**NOTED EXPLORER DIES**  
London, Aug. 1.—Sir Harry Johnston, noted explorer and writer, died here yesterday. He was 68 years of age. Sir Harry Johnston spent much time in explorations in Africa and wrote extensively about his travels. He was an honorary member of the New York Zoological Society.

**FORKE BACK FROM OVERSEAS**  
Ottawa, Aug. 1.—Hon. Robert Forke, minister of immigration and colonization, returned to his office today after an extended absence, during which he visited Great Britain, Norway, Sweden and Denmark. The minister of immigration was optimistic with regard to immigration prospects.

Some men are born great, more acquire greatness, and others put up a successful bluff.

## Highest Test to Come in the Reconciliation of Agriculture - Industry

**Declares Premier Baldwin, Who In Company With the Prince of Wales and Prince George, Arrive in Canada—Leader of Government in Britain Comments on Conditions Through 3,000-Mile Gales**

Quebec, Aug. 1.—The Prince and the Premier landed at King's wharf in the midst of brilliant midsummer weather. The Prince of Wales, Prince George and Premier Stanley Baldwin were welcomed by Premier Mackenzie King and Lieutenant-Governor Perceval on the Empress of Australia about one hour after she anchored in midstream, and both parties came on board the Lady Grey while guns boomed from the citadel. Thousands flocked into the narrow streets of the lower town and thousands more lined Dufréne's Terrace from end to end.

Montreal, Aug. 2.—A civic reception, golf, strategy, sight-seeing and dining were all crowded into Montreal's program for Canada's guests. Premier Baldwin managed to have a walk in the country.

For the Prince of Wales and Prince George, the day was a series of rushes through crowded streets with police motorcycles thundering ahead on the way from duties to diversions and back to official duties again.

Mr. Baldwin's day was almost as intensive as the royal one. With Mrs. Baldwin he too attended the civic reception.

At 1 o'clock he was the guest of honor of the Montreal Canadian Club, and delivered an address.

The business affairs of the Empire were Mr. Baldwin's topics. He told of the work of the Empire marketing board in creating an atmosphere and a "consciousness of Empire." It was to be hoped, he said, that Canada would give the Empire the first choice when it came to purchasing.

The Prime Minister spoke with pride of the high sense of public duty of the younger men of England—the men who had gone from school to war. These men were showing great promise in all spheres of public life and represented the keenest part of interest of the people of Great Britain in the affairs of their country. Any assumption that there was decadence in Britain was "the greatest mistake in the world."

"In Canada," said Mr. Baldwin, during his address, "you know far better than I what your problems are. But, even as I regard them from 3,000 miles away, I can see as the years go by that the highest test of statesmanship will be called for in reconciling agriculture and industry, in reconciling the interests of east and west, and binding together east and west and central Canada. You typify in Canada the finest civilizations in Europe, that of France and that of England, civilizations which have worked against each other, fought each other for ideals over the centuries, but each always in the van of progress. Try, as the years go by, and let your statesmen try, and see that that kind of civilization never gets too much diluted."

Don't be in too much of a hurry to

**HOBBS KILLED DURING STORM**  
P. Dickan, four miles west of Wetaskiwin, had the misfortune to have three horses struck by lightning and killed during the storm which passed over the district on Friday last. An immigrant, who arrived from the old country about a month ago, was working with a four-horse team in the field, was knocked down and stunned by the shock, but was not seriously hurt. The other horse was also slightly affected, but soon recovered. There was no hail in the storm and very little rain fell.

**MANY THOUSANDS LOST**  
Shanghai, China, Aug. 2.—Mr. Theodore Budden Brock, German Vice Apostolic of the Holy Mission at Lianchow, Kansu Province, in a letter to his colleagues at Shanghai, declares that the loss of life in the earthquake at Kansu on May 23, "may exceed 100,000." He says definitely that many thousands are dead.

Advertise in the paper that circulates all over the district thoroughly.

## Our Auto Camp Is Best Yet In the Opinion of Many Tourists

Few of the citizens of this city have the opportunity to hear the most compliments that are passed and recorded in the register concerning Wetaskiwin's auto camp. The camp, nestling at the base of our land mark, the water tank, is one of the best in Alberta, according to the many visitors who avail themselves of the hospitality the city offers here. This week the reporter of the Times spent a pleasant half hour perusing the register and found many comments, such as "We like your Wetaskiwin water." "A splendid camp." "We appreciate your camp very much." "A very clean and convenient camp." "Best camp we have struck yet, woodpile supreme."

People from the western parts of the States and Canada have visited the camp and have spent the night there. Mr. and Mrs. O. Hanger coming all the way from California, remarked that it was the best camp that they had been in on the trip. Mr. and Mrs. J. Zerm (Continued on page 4)

## AVERAGE MAN USES 10,000 WORDS; HIGHBROW TYPE DABBLES IN 50,000

New York, N.Y., Aug. 1.—The "average man's" vocabulary is 10,000 words and that of the "educated man" 50,000 words, according to the learned doctors of the science. Transcontinental agreement on this was reached recently when Frank Horace Vitzell, lexicographer, editor and author, of New York, said he was in accord with H. W. Shryock, president of the Southern Illinois State Normal University, on the size of an educated man's vocabulary.

"But," said Mr. Vitzell, "because a man doesn't command 50,000 words, he is not, as Mr. Shryock said, 'intellectually poor.'"

Merchandising is like holding a girl's hand. But Advertising is—pop! the question!

## Grade XI Examination Results Announced by the Department

The results in the Grade XI departmental examinations were announced by mail this week. As is the course that is being followed by the Department of Education in all grades except Grade VIII, it is almost impossible to get a complete list of the successful candidates. At the time of going to press we have learned that the following passed the "grade clear" out of the 38 students who wrote the examinations: Evelyn Albrow, Herbert Anderson, Kenneth Brown, Elsie Farnham, Morgan French, Frank Morrison, Peggy Rubra, Robert Thomas, Louise Wiberg, Claire Williamson.

The following were conditioned in one or more subjects: Abe Abousaffy, Edith Cooke, Frances Corneli, Louise Elkerman, Margaret Gullikson, Doris Hanna, Myrtle Johnson, Doris Leisner, Helen McArthur, Earl Mellett, Jennie Moore, Clifford Munn, Norma Nelson, Lily Stevens, Alan Stewart, Lauretta Vickers, Clifford Aspl.

## EIGHT THOUSAND MORE MEN REQUIRED TO GARNER ALBERTA HARVEST

Edmonton, July 30.—Alberta's crops will require 15,000 men to harvest, according to Walter Smitten, Provincial Labor Commissioner, who returned to the city Friday morning from Winnipeg, where he attended a conference of western government representatives on harvest situation. This number is considerably in excess of the 1926 figures, when a total of 13,000 were used.

Of the estimated number of 15,000 some 5000 will be brought in from British Columbia and the east, said Mr. Smitten. The remaining 10,000 can be found within the province.

In support of this contention, Mr.

Look at the label on your paper.

### Kiwanis Don War Paint to Tackle Pesky Mosquito

The pesky mosquito is not confining his nefarious tactics within the confines of Alberta but is also raising rations with man and beast in the other half of the Dominion. In Ontario fear is expressed that malarial outbreaks are possible, so that from a health standpoint as well as the standpoint of comfort organizations are making sweeping attacks upon the buzzers.

In Okla. the Kiwanis Club has taken the initiative towards acquiring a fund of two thousand dollars with which to carry on a campaign for extermination of the mosquito's activities.

In Ottawa a campaign which has been conducted during the past two years met with considerable success. The eastern portion of Ottawa has been notorious for its mosquitoes for many years and last year efforts were made to eliminate the pest from the region of Rockland, but without great success, since it was found that the breeding grounds were situated across the Ottawa river at the mouth of the Gatineau Point, where a very large area has been flooded every year. During the present season the range of operations has been extended to Gatineau Point and Kettle Island with the result that, for the first time in the memory of inhabitants of these areas and Ottawa, the mosquito has been a rare creature. So successful has been the control work efforts that those who objected most strenuously to the expenditure of civic funds are now ardent supporters of the campaign and will be continued.

The amount necessary to be expended on such a campaign cannot be determined accurately beforehand, since so much depends upon weather conditions. During seasons such as this in which there is an excessive amount of rainfall the breeding season is greatly extended, and under such conditions necessary to oil twice although a single oiling is usually all that is necessary.

In order to reduce the scope of oiling operations it is advisable to carry out a preliminary draining plan, whereby all pools possible are drained. By following out such a practice in a systematic manner the pests may be greatly reduced in numbers, it is claimed.

We have with us our friend the damsel fly, which possibly has been the means of providing a measure of relief, as there has been a lull in the highly annoying toll of the "skeeter" during the past few days. Nevertheless we will be interested to learn as to the success attending the efforts of the Kiwanis club, east in their latest community effort.

### Too Much Luxury Often a Detriment to Younger Fry

A 15 year old New Jersey boy, son of a wealthy business man, left home the other day and went out to seek his fortune. Departing, he left word that he was running away to get away from the luxury that surrounded him. His parents had been keeping him in an expensive preparatory school; he wanted to get out and get a job.

And so, being, apparently, a youth of spirit, he went. He is now, presumably, working somewhere as he wanted to do; his father, searching for him, says he can keep his job if only he will communicate with home.

There are very few boys who ever run away from home because the parental roof is too luxuriously padded. Likewise, there are very few of us older ones who would ever take flight from the ease of riches. Yet we all sympathize with this New Jersey lad, and we can't help feeling that he must have had the right sort of stuff in him.

Luxury such as great wealth makes possibly doesn't hurt an older person, but, after all, it is hardly the best environment for a growing boy. Youth needs a certain amount of hardship,

certain privation, if it is to mature and develop properly. It must not be shielded too carefully. In that respect this Jersey youngster had the right idea.

Now is this a problem which need concern only the rich. The rest of us folk of moderate—or less than moderate means can ponder on it for a while with profit.

For we all have a tendency to pamper our children. It's the most natural thing in the world. We want to shield them from the bumps and hard knocks we took at their age; we want to make life as easy and soft for them as we possibly can.

It is a good thing that we so often fail. Youth that is sheltered is often faint. There is only one way to learn how to meet life's problems and that is to receive a few of life's jolts.

So all of us can hear that in mind even though we aren't rich. Without thinking, we try to give our children too much luxury. It is wise for us to know how to meet difficulties, not how to avoid them.

### Confederation and After; Sixty Years of Progress; A Tale of Mining

During the latter part of the nineteenth century and the first part of the twentieth century romance and adventure in Canada have been those associated mainly with prospecting and mining. The early discoveries of gold and silver in Nova Scotia, Quebec and parts of Ontario did not create any great amount of excitement, and results, as compared with present day output, were unimportant.

Following the great gold rushes of Australia and California, came that of British Columbia in 1858 and subsequently that following the more momentous discoveries in the tributaries of the Fraser River in Cariboo. Subsequent minor excitement occurred over finds in Ontario Cassiar and in 1889 in Alta. Cariboo alone has yielded about \$60,000,000 of placer gold and B.C. altogether between \$75,000,000 and \$80,000,000. Perhaps the richest discoveries ever made were in Yukon, beginning in 1896, and nothing since the Australian excitement. English-speaking world. Dawson, the centre of the district, and well within the Arctic Circle, became a modern city of thousands of inhabitants, with all the conveniences and highlights of a cosmopolitan centre. The glory of placer mining, subject to possible new discoveries, with all its romance, adventure, hardships, its high hopes and its many tragedies, is now a thing of the past.

Lode-mining, responsible for the present output of over \$240,000,000

**The Time to Advertise is:**  
When Business is good,  
It makes it better.  
When Business is dull,  
It makes it sharper!  
When Business is slow,  
It makes it faster!

So there is only one thing to do. That is—Advertise all the time! If you want to sink into oblivion—stop Advertising!

and ever increasing production, is a comparatively recent industry. Its importance was only beginning to be recognized in 1858, when the first statistics of mining in Canada began to be systematically collected and tabulated. That year the output was valued at a little over \$100,000,000, and the fact that in coal, copper, silver, gold, nickel, lead, zinc, asbestos and structural materials production has increased twenty-four times since then is a piece of romance in itself, and in the line of prospecting and developing adventure would furnish the most voluminous of truth quite as interesting and exciting as an equal quantity of the best fiction. Though today prospecting is following in the paths of more scientific methods of discovery, and perhaps with more satisfactory results, and although the old-fashioned prospector with his bit and miss methods of following up float to its source and staking many more "dry" holes than real deposits is fast dying out, much of the success of mining has been due to his relentless pursuit of wealth in the wilds of Canada and struggling and undergoing hardships and risks that he would not in any other pursuit expose himself to.

It was in the way of adventure, coupled with a good deal of chance, that the nickel-copper mines of Sudbury, the silver-cobalt mines of the Cobalt district, the rich gold fields of Porcupine and Kirkland Lake, the copper gold at Rouyn, the discoveries at Pas, the coal in Crownpoint Pass, and the many great finds of copper, silver, lead and zinc mines in Southern British Columbia, on Vancouver Island, at Asunc, at Stewart and in Alta. in B.C. have been made possible. The prospector is now bringing to his aid science, being instructed by mining experts, automobiles—in addition to old-fashioned dog sleds, horses and canoes—and aeroplanes. He has also radio and wireless to assist. The capitalist is now using diamond drills to determine the depth and extent of his ore and the latest and most economical processes

for treating it, making it possible to utilize profitably large bodies of very low-grade quality. In these ways during the last few years the area of exploited mineralized territory has been tremendously increased and the output proportionately so. Incidentally, Nova Scotia leads in the production of coal, Quebec in asbestos, Ontario in gold, silver and nickel, and British Columbia in copper, lead and zinc. Incidentally, too, mining is now the third industry in importance in Canada, and the story of its development since, especially, 1856, the most interesting in our industrial annals. Canada's future as to the extent of its mines is problematical, but we have reason to conjecture that it is only on the verge of its possibilities.

**DIVORCES AND PUBLICITY**

A London cable carries the interesting information that since the ban on the publication of details of divorce cases in Great Britain there has been a large increase in the number of divorces and particularly in the number of undefended actions. During a six weeks' term which has just ended, London judges dealt with a total of over 700 divorce cases, over 625 of them being undefended.

This increase affords no positive proof that publicity is a check to divorce. It is a fact, however, that publicity has the effect of keeping people out of divorce courts; nobody except the most envious regarding the publication of details of a personal and creditable character. So that it may well be that when the British Parliament put a ban on the reporting of divorce cases it checked one evil only to promote another.—Ottawa Journal.

"Slight Lone Man in Small Ballroom 300 Miles Off New England Coast." Somebody should tell him his wife has forgiven him.

The best reason is the one that goes over your head and hits the other fellow.

for treating it, making it possible to utilize profitably large bodies of very low-grade quality. In these ways during the last few years the area of exploited mineralized territory has been tremendously increased and the output proportionately so. Incidentally, Nova Scotia leads in the production of coal, Quebec in asbestos, Ontario in gold, silver and nickel, and British Columbia in copper, lead and zinc. Incidentally, too, mining is now the third industry in importance in Canada, and the story of its development since, especially, 1856, the most interesting in our industrial annals. Canada's future as to the extent of its mines is problematical, but we have reason to conjecture that it is only on the verge of its possibilities.

### Fur Trade Ancient Industry Yielding to Newer Methods

The persistence of the fur trade in Canada is suggested by the fact that last year exports of pelts and mammal-furated goods had a value of \$20,685,657. Ever since King Charles II. granted a charter to "The Governor and Company of Adventurers of England Trading into Hudson's Bay," now known as the Hudson's Bay Company, the lure of fur has had much to do with the genesis of Canadian history. The traditions of that traffic are woven into the very fibre of Canadian national life.

While Indians and white men still seek the distant and silent places for the settling of their furs, and that romantic aspect of the fur trade may continue indefinitely, we must all frankly see that a fundamental change has occurred. The ranches are now yielding nearly as large a volume of furs as does the wilderness. The breeding of fur-bearing animals has become an industry precisely like the raising of commercial livestock, and in that organized form, with capital at its back, there is no telling what its situation will be twenty-five years hence. Enormous progress has been made since the opening of the current century. But there is no romance in it.

"We need your head to run our business," shouts a poster in a Glasgow hairdresser's window.

"Take these boots off your feet, and put them on your feet," pleads a Belfast shoemaker.

"Trousers to measure, 5s 3d a leg—all seats free," boasts a Manchester tailor.

"A good chef gets more than a college professor."

"Why shouldn't he? A lot more people take his courses."

Doris—"Would that you could tell me how to spend a broken heart!"

Dick—"I have a number of cases where it was done by splicing."

It is pretty generally understood that a player should not assist his partner's suit bid without the probability of at least three tricks with that suit as trump. This convention is a very wise one and should be closely followed, but certain exceptions should be carefully noted and understood. If your partner relays his suit, either before you have a chance to bid or after you have passed, you are justified in giving him a raise with the probability of two tricks. If he rebids twice, you can raise twice, but one trick. The following hand played in a duplicate game the other night and is a good illustration of the principle:

Hearts—7, 6  
Clubs—J, 10, 7, 6, 4, 3, 2  
Diamonds—K, J, 10, 8  
Spades—K, 10, 8

No score, 2 dealt and bid one spade. A bid two hearts and Y passed. This pass is correct for he has but the probability of only one trick. B passed and Z bid two spades. A passed, Y passed and B bid three hearts. Z now had three spades and A bid four hearts. What should Y now bid? Y's partner has relayed twice showing a very strong hand. Y has one sure trump trick and four clubs and diamonds to the jack, one of which must be Z's side suit. For these reasons Y should undoubtedly bid four spades. Y-Z can just make four spades so that Y's bid in this situation, a perfectly justifiable one, would have been a big winner.

It isn't often that the writer receives such an interesting letter as the following and one that involves such instructive principles:

"In one of your recent articles you write about the game being interesting because of the chances for discussion and wide differences of opinions. In the following hand:

Hearts—7, 6  
Clubs—J, 10, 7, 6, 4, 3, 2  
Diamonds—K, J, 10, 8  
Spades—K, 10, 8

No score, 2 dealt and bid one spade. A bid two hearts and Y passed. This pass is correct for he has but the probability of only one trick. B passed and Z bid two spades. A passed, Y passed and B bid three hearts. Z now had three spades and A bid four hearts. What should Y now bid? Y's partner has relayed twice showing a very strong hand. Y has one sure trump trick and four clubs and diamonds to the jack, one of which must be Z's side suit. For these reasons Y should undoubtedly bid four spades. Y-Z can just make four spades so that Y's bid in this situation, a perfectly justifiable one, would have been a big winner.

## SMILERS

An English concern advises—  
"Shirts that laugh at the laundry."  
Not so hard as to split their sides,  
we hope.

Son—Pa, what is a football coach?  
Father—The ambulance.

"Mother," said George, as he presented an office chum who had come to spend Saturday afternoon with him, "this is my friend, Mr. Speck-noodle."

"I'm sorry," said George's mother, "but I didn't quite catch the name."

"My friend, Mr. Speck-noodle!" shouted George.

"I'm sorry," said his mother, "I didn't think I was deaf, but I can't catch the name."

"Speck-noodle!" George fairly bellowed.

"I'm afraid it's no use," said the lady, as she shook her head. "It sounds just like 'Speck-noodle' to me."

Portuguese Hubby: Where on earth is my hat?

Wife: It's there on the sideboard.

Hubby: Well, I wonder in what ridiculous place I'll find it next?—Passing Show.

The preacher inveighed against the people who attend church for no better reason than to show off their best clothes.

He concluded his homily with this tribute: "I am thankful to see it is obvious now of you have come here for that reason."

"We need your head to run our business," shouts a poster in a Glasgow hairdresser's window.

"Take these boots off your feet, and put them on your feet," pleads a Belfast shoemaker.

"Trousers to measure, 5s 3d a leg—all seats free," boasts a Manchester tailor.

"A good chef gets more than a college professor."

"Why shouldn't he? A lot more people take his courses."

Doris—"Would that you could tell me how to spend a broken heart!"

Dick—"I have a number of cases where it was done by splicing."

## TOLD OVER THE TEACUP

The Alimony Payers' Protective Association, says a despatch from New York, most of whose members are in jail for non-payment of it, feels that wives need their advice. Through its secretary, Robert G. Eob, the club has issued ten suggestions.

"They're not commandments or rules," said Mr. Eob sadly, "because you can't command or rule a woman. The list, which, according to Mr. Eob, has no axe to grind, follows:

(1) Keep away from lawyers. They make bitter enemies of your husbands. They make profits and cause trouble. Your husband will give you more money voluntarily than you will ever get in court.

(2) Do not have your husband arrested. He will never give you any money voluntarily after arrest, and will never have anything to do with you if he can possibly avoid it.

(3) Avoid making your husband jealous.

(4) Do not have your husband's wife and not your parents' daughter. Keep the ink-blot subdued or at least in the background.

(5) Do not run off with the children, move the furniture out and take all the money you can by your hands. Your husband is sure to resent such treatment and will never forgive it.

(6) Do not prevent your husband from seeing the children. It precludes the possibility of any reconciliation.

Describing the fine work being accomplished by the London Child Welfare Association in reducing the infant mortality rate and insuring a healthy race of future citizens, Miss Bertha Smith, supervising nurse of that organization, held the clearest attention of the London History Club at a luncheon. Miss Smith took occasion to defend the modern young flapper against the criticism levelled at her by declaring that these same young flappers, having assumed the responsibilities of motherhood at an early age, are just up-to-date in their efforts to learn all that they possibly can about child hygiene. They vie with each other, she said, in keeping their babies in the pink of condition by availing themselves of the splendid opportunities afforded them at the well-baby clinics.

"Bride Broder" in the Mail and Empire, says:

"They tell us we have triumphed gloriously in every sphere, from the palace to the cabin, and from the university to the steel factory, but what, oh, what does it all amount to, when we measure it up with cyclonic wave of assertive femininity that has delivered us from the thrall of the ward-robbers of the past?"

"We have advanced, no doubt, but all advancing seems petty when we range alongside the shocking we have done. We've shed the quilted petticoat and the all-encompassing crinoline. We've unspiced the lining from our skirts and torn the steel and whalebone from our 'basques' and thrown these last-named garments after them. We've put the bustle in a museum and placed the long full skirt that swept the dust from the street on the index expurgatories of desecration."

"We've washed the starch from our underthings and feel no quiver when we go forth on a warm day in a silk shirt and bloomers, a shock-proof slip and a frock that is made of four yards of thin silk."

Never put sugar in prunes. If you cook them slowly they will be quite sweet enough without any sweetening. Prunes and apricots are delicious cooked together, and a few raisins thrown in for good measure add to the flavor.

### SUCCESSFUL PUPILS

The following pupils of Mrs. Condie were successful at the recent Toronto Conservatory music examinations held here:

Introductory Grade—Mary Oaks, honors.

Elementary Grades—Thekla Cooke, honors; Mabel Anderson, honors; Evelyn Wilson, Kathleen Abousay.

### Weddings

#### FRICHEL—JANZEN

On July 26th, Mr. Gottlieb Friche, of Daiches, Alta., and Miss Gertrude Janzen, of Wetaskiwin, were united in the holy bonds of matrimony, in the English Baptist Church, Rev. S. Kaeche officiating.

#### WILLIAMS—JOHANSEN

The Baptist parsonage was the scene of a pretty and quiet wedding on Saturday forenoon, July 30th, when Mrs. P. M. Meyer solemnized the marriage of Arna Johansen and James Clifford Williams, both of Edmonton.

#### SILVER WEDDING

Mr. and Mrs. Richard Kasur celebrated their silver wedding on Sunday last at their home. Numerous friends from the district and also some from farther afield arrived in the afternoon to tender their congratulations, and a very pleasant day was spent by all present. In the course of the afternoon, Rev. A. Aggei conducted a short service in the open air and addressed the bride and groom, his remarks on Samuel 1:7-12. He referred to the many blessings which God had permitted them to enjoy and urged them to be thankful and continue to trust in the Heavenly Father, the blessed Redeemer and the Comforter also in future. The service ended with the benediction and an appropriate hymn. Mr. and Mrs. Kasur were the recipients of numerous well-chosen gifts, and, strange to say, so fortunately chosen were they that no better selection could have been made, had the donors consulted each other prior to the purchasing of each gift. Among the guests were Mr. and Mrs. Oppert, house of Stoney Plain, who had motored down to honor their old friends.

ANNIVERSARY IS CELEBRATED  
On the evening of July 25th friends of Mr. and Mrs. C. Condie gathered at their home, the occasion being the tenth anniversary of their marriage. The evening was spent in various ways. Musical selections were rendered by Mrs. Condie and Mrs. Atkinson. At midnight a dainty lunch was served, a large wedding cake centering the table. After a few remarks had been made, several useful gifts were showered on the happy couple as a remembrance. Mr. and Mrs. Condie responded in a very lively manner. After offering their hearty congratulations, the guests departed for their respective homes.

#### SUNDAY SCHOOL PICNIC

The annual school and Sunday school picnic of Zion Lutheran congregation was held at Mr. Henry DeWald's on Wednesday, July 27th. The weather left nothing to be desired. The mosquitoes were on their best behavior and everybody showed that they were out for a good time and they had it. The school children sang a number of songs and hymns and some of them also took part in a humorous and amusing skit, "Our School Examination." This number was especially well-received and the humorous and unexpected answers evoked shouts of laughter from the

#### NEW CARS BOUGHT

Among those who purchased new Star cars recently from the Wetaskiwin Motor Sales are the following: H. J. Appleton, of Yorkford; Fred Sleight, of Camrose; and Ernest Dahms, Walter Dahms, Fred Nelson, and Victor Scott, of Wetaskiwin. A. J. Taylor purchased a Hummobile from the same firm.

#### ADVERTISERS KNOW THE VALUE OF THE NEWSPAPER

audience. Mr. Klemke most kindly conveyed the children from the city to the picnic grounds and everybody present did his or her best to make the outing a success.

#### MARRIAGE LICENSE CHAMPION

London, Aug. 2.—Thirty thousand marriage licenses, including 19 on parchment for royalty, were issued by Benjamin Bates Hall, who has just died at the age of 81. He worked 65 years as Chief Clerk and Sealer at the Family Office of the Archbishop of Canterbury in Doctors' Commons, E. C. Among the royal licenses were those of the King and Queen, the Duke and Duchess of York, Princess Mary and Viscount Lascelles.

### BORN

GRIFITHS—A. Brightwell, on the 2nd inst., to Mr. and Mrs. George Griffiths, a son.

JANS—In the Wetaskiwin Hospital, on the 2nd inst., to Mr. and Mrs. Herman Jans, a son.

EIKERMAN—At Duhamel, on the 31st July, to Mr. and Mrs. Fred Eikerman, a son.

### MA-ME-O BEACH

Mr. Jas. Vickers and daughter, Lauretta, and Mrs. W. J. Baldy and family are spending the holidays here.

Miss Myrtle Johnson is the guest of Miss Kathleen Kelly.

Mr. Chris Schmidt, of Brandon, has arrived to spend his holidays.

Mrs. Lege and family are guests of Mrs. T. C. Rabura.

Mr. and Mrs. Merger and family have opened up their cottage for the season.

Mrs. Deitz and friends are holidaying at Ma-Me-O.

The opening dance of the season is being held on Wednesday, August 3, 8:30. Moonbeam Orchestra in attendance.

Mrs. Blackwell and family are occupying "Idiogary."

Messrs. Orr, Chandler and Merger are camping at the beach.

Dayland campers are holidaying here.

The Somers' family have opened up their cottage.

"Max Inn" has been opened for the season.

Sunday school and church was conducted in the hall on Sunday by Rev. Elliott.

A diving board has been erected for enthusiastic bathers.

Mr. and Mrs. Knox spent Sunday at the lake.

Miss Hazel Baxter visited at Dumbro Sunday.

Mr. and Mrs. Childy and friends spent Sunday at the lake.

Mr. and Mrs. Williams have joined the Mission Reist to spend their holidays.

Among those who purchased new Star cars recently from the Wetaskiwin Motor Sales are the following:

H. J. Appleton, of Yorkford; Fred Sleight, of Camrose; and Ernest Dahms, Walter Dahms, Fred Nelson, and Victor Scott, of Wetaskiwin. A. J. Taylor purchased a Hummobile from the same firm.

Advertisers know the value of the newspaper in their community. Subscribing for the newspaper that the merchants use for their advertising.

### OLDS S.A. SWINE CLUBS FOR BOYS AND GIRLS GROW

Recent Inspection Shows Porks Distributed to Be Practically All in High State of Thrift

Three Boys' and Girls' Swine Clubs have been organized from the Olds School of Agriculture this season. E. W. Phillips, livestock instructor, was engaged for several weeks in soliciting membership, and in buying, collecting, and distributing pigs at Red Deer, Olds and Innisfail.

At Red Deer 30 members were enrolled, at Olds 45, and at Innisfail 33.

At the three points 27 purchased Yorkshire pigs and about 220 first-class grades were placed in the hands of members, all of whom are farm boys and girls between the ages of 10 and 21.

The grades, feeder pigs, were all between eight and 10 weeks of age at the time of distribution, and were as good a quality of bacon type as was available. These are to be shown at the Swine Club show at the same time as the School fair, then in October, will be shipped as a carload from each point, all the cars being entered in competition at a central point, probably Calgary. The members and their pigs enter into a number of competitions for which the Department of Agriculture and the railway companies offer a variety of prizes, all of which is expected to stimulate the interest of the farm youth in the production of bacon hogs and in livestock projects generally, and to increase their knowledge along these lines.

The purchased young Yorkshire sows were placed with members in cases where no purchased or first grade sows existed on the farm already. This will be retained for breeding purposes, and it is hoped will furnish a source of purchased stock for future members in that district.

Recent inspection of pigs which were distributed some weeks ago showed them to be practically all in a high state of thrift and to be making very rapid gains. This constitutes a tribute to the enterprise and enthusiasm of their young owners. It is also a convincing demonstration of the at least equal efficiency, rapidity of gain, and economy of the bacon type hog, a point which, as some farmers, has been somewhat in doubt.

THE NAVY LEAGUE OF CANADA (Alberta Division)

The Rev. Fred Cooke, who has been in Wetaskiwin taking up subscriptions to the Sailor Magazine and donations to the Navy League, wishes to thank the citizens for their assistance, as they have contributed about \$30.00 to the Alberta Division. The Navy League of Canada assists the widows and orphans of our men of the Merchant Service as they do not receive government assistance. The Navy League supports Sailors' Homes and Institutes, etc., in all our larger Canadian ports from coast to coast, and looks after the welfare of our seamen when ashore. The Navy League also trains boys and young men and makes better Canadian citizens of them.

The Alberta Division is required to raise \$8,000 as its quota to the \$250,000 budget of the Navy League of Canada. Contributions can also be sent to Jno. A. Irvine, Esq., Hon. Sec-Treas., 517, First Street East, Calgary, Alberta.

BIG PRIZE WINNER AT CAMROSE FAIR

W. J. Pickett, of the Farmington Farm, won a large number of prizes at the Camrose Exhibition last week with his fine herd of Jerseys. He was awarded first for aged bull, junior yearling, senior calf, junior calf, senior yearling, senior cow, 2nd yearling, 3rd yearling, 1st yearling, 2nd yearling, 3rd yearling, 4th yearling, 5th yearling, 6th yearling, 7th yearling, 8th yearling, 9th yearling, 10th yearling, 11th yearling, 12th yearling, 13th yearling, 14th yearling, 15th yearling, 16th yearling, 17th yearling, 18th yearling, 19th yearling, 20th yearling, 21st yearling, 22nd yearling, 23rd yearling, 24th yearling, 25th yearling, 26th yearling, 27th yearling, 28th yearling, 29th yearling, 30th yearling, 31st yearling, 32nd yearling, 33rd yearling, 34th yearling, 35th yearling, 36th yearling, 37th yearling, 38th yearling, 39th yearling, 40th yearling, 41st yearling, 42nd yearling, 43rd yearling, 44th yearling, 45th yearling, 46th yearling, 47th yearling, 48th yearling, 49th yearling, 50th yearling, 51st yearling, 52nd yearling, 53rd yearling, 54th yearling, 55th yearling, 56th yearling, 57th yearling, 58th yearling, 59th yearling, 60th yearling, 61st yearling, 62nd yearling, 63rd yearling, 64th yearling, 65th yearling, 66th yearling, 67th yearling, 68th yearling, 69th yearling, 70th yearling, 71st yearling, 72nd yearling, 73rd yearling, 74th yearling, 75th yearling, 76th yearling, 77th yearling, 78th yearling, 79th yearling, 80th yearling, 81st yearling, 82nd yearling, 83rd yearling, 84th yearling, 85th yearling, 86th yearling, 87th yearling, 88th yearling, 89th yearling, 90th yearling, 91st yearling, 92nd yearling, 93rd yearling, 94th yearling, 95th yearling, 96th yearling, 97th yearling, 98th yearling, 99th yearling, 100th yearling.

Junior yearling, 1 senior calf, 1 junior calf, 3 junior calf, senior championship sow, junior championship heifer, as well as all-champion heifer.

### TO MEET AT CAMROSE

Camrose, July 25.—The Camrose constituency U.F.A. provincial convention will be held in Camrose on Monday, August 8. Hon. Versar W. Smith, minister of railways and telephones in the provincial cabinet, will address the convention. On the following day, the Camrose constituency U.F.A. federal political convention will be held. The annual U. F. A. picnic for the Camrose district will follow on Thursday, August 11.

### MANY GOING OVER BORDER

Hopkium, Wash., Aug. 2.—Canadian immigration to the United States, in the opinion of Albert Johnson, chairman of the house of congress committee on immigration, is annually consistent, the figures standing at about 32,000. Total immigration to the United States from all countries for the year ended June 30 last he estimated at more than half a million.

### Our Auto Camp

(Continued from Page 1)

sek, of Coffee Creek, Montana, recorded that they "enjoyed their home away from home." Mr. and Mrs. A. Royer, of Edmonton, remarked that "the citizens of the City of Wetaskiwin must all be motorists."

Tourists have been staying at the camp ever since the first of June. Throughout the summer as many as twenty spent the night there and then go on their travels. It is interesting to note the many places from which they come and the many summer resorts they intend to visit. It is impossible to list all the names of the visitors, but here are some of the more interesting ones, interesting because of the places they call home:

Mr. and Mrs. B. M. Hughes, Cllo, Iowa.

Mr. and Mrs. John Thorkelson, Trail, Minn.

Mr. and Mrs. T. R. Brown, Portland, Oregon.

Mr. and Mrs. Geo. Edworthy, Valparaiso, Sask.

Mr. and Mrs. Zemsek, Coffee Creek, Montana.

Mr. John Rousek, Comstock, Neb.

Mr. and Mrs. Greenstead, Texas.

Mr. and Mrs. W. F. Smith, Palouse, Wash.

Mr. and Mrs. P. Harris, Spokane, Wash.

Mr. R. H. Carrey and Mr. John Kinchrough, Welby, Idaho.

Mr. and Mrs. E. R. Cramp, Olympia, Wash.

Mr. and Mrs. F. Walker, Gooding, Idaho.

The lists also include the names of people from many parts of Saskatchewan, as Saskatoon, Moosemin, Glenora, Unity, Star City, Regina, Kel-Field, Richard, Valparaiso, and the names of people from all parts of Alberta and many parts of the States.

The City of Wetaskiwin is to be complimented upon its auto camp. In fact a byword among tourists is "Wetaskiwin, the place of the good auto camp. Of course the camp, like everything else, has its weak points, but judging by the general expression of opinion recorded by the tourists, it is undoubtedly the "best in the West."

### Ye Editor Returns

(Continued from Page 1)

tion of convention matters undisturbed by the distractions and noise of the city. Combined with this is the rare natural beauty of the surroundings, four fine facilities for golf, tennis, bowls, and water sports, hotel accommodation that is the acme of comfort.

The architectural plan of this summer hotel is unique. Instead of being one big building, the hotel consists of several buildings, delightfully shaded with maples and other hardwoods. Sleeping apartments are divided into east and west lodges each with 142 rooms all with hot and cold water and nearly all with baths. The dining room rises from the water's edge in a Moorish design with a spacious veranda. It can seat 500 people at a banquet. Close by the wharf is a circular dance pavilion which is also used as a convention hall. It is far enough removed that guests in their rooms are beyond the sound of the strains to which the dancers might enjoy themselves.

The spacious main building, surrounded by broad open verandas, the base of which is built up of large native boulders, is the gathering place for guests at all hours of the day. It contains the hotel offices, news stand and great rotunda or lounge, this latter extending the entire length of the building. Its high heavily-beamed and raftered ceiling, its surrounding gallery reached by broad staircases, its eight large stone fireplaces, four of which are below the gallery and four above, and other appurtenances give it an atmosphere of some old baronial hall.

For cuisine and service in every department the Bigwin is unsurpassed, the management priding itself upon the high quality of its staff, a large percentage of whom are students.

Bigwin is named after Chief Bigwin who many years ago had his headquarters on this island. If one cares to climb to the top of the lookout tower, he can get a newer idea of the size of this magnificently wooded island

# Scientifically Packed "SALADA" TEA

As free from dust as tea can be.

and will understand how the lake got its name.

An excellent train service on the C. N.R. takes the traveller to Huntsville where he finds waiting one of the well-appointed steamers of the Huntsville and Lake of Bays Navigation Co. Although it rained steadily on both inward and outward trips we could not but notice the charming scenery on Fairy and Puntisular Lakes and Lake of Bays. A novel experience is the trip over the Portage on what is said to be the shortest complete railway in the world—less than two miles in length. It is amusing to see the way the little 40-h.p. engines snort and splutter as they make the grades. On a bright summer's day the journey from Huntsville to Bigwin must be a most delightful one.

At the banquet held on Thursday evening there was an address of welcome from Mr. H. E. Rice, publisher of the Forester and mayor of Huntsville, an entertaining address from Mr. Melville B. Tudhope, K.C., of Orillia, Ont., and songs by Mrs. Anslow, of Windsor, N.S., and Mr. Harvey Donoy, of Toronto. The latter is a youth who puts in his summer on the hotel staff and entertains the guests with a voice which has grand opera qualities. Between meetings, the time passed quickly with golf, tennis, bowling and other diversions.

Passing through Barrie on the return trip, the special train was halted for nearly an hour to enable the party to take an auto drive around that beautiful town as guests of the Ki-

wanis Club. This feature was arranged by J. A. McLaren, past president of the association, and made a delightful break in the train trip. The party was greeted at the station by the band, which rendered a number of selections.

The 1928 convention will undoubtedly be held in Alberta, either at Banff and Lake Louise, or at Edmonton and Jasper.

Doctors who know Minard's Liniment also prescribe it for my patients always with the most gratifying results, and I consider it the best all-around Liniment." G. A. King, M.D., also recommends Minard's in the following words—"I have used Minard's Liniment myself as well as prescribed it in a hundred cases where a liniment was required, and have never failed to get the desired effect."

## SPORTING NEWS

## ORGANIZATION FORMED TO PUT WETASKIWIN ON MAP AGAIN AS LEADING SPOT IN SPORT REALM

Largely Attended and Most Enthusiastic Gathering Select Dr. Johnson as Presiding Officer of Wetaskiwin Sports Association, C. B. McMurdo Being Unanimous Choice To Take Charge of Secretarial Duties—Executive Preparing Constitution and By-Laws, Etc.

Again emphasizing a unanimity of opinion that Wetaskiwin has for some time been lagging in the fostering of one of the greatest assets of any community, the various elements of sport and detailing the multifarious reasons which have been prime factors in the degeneracy which has crept upon the community in this respect, the adjourned meeting held in the city council chamber on Friday evening last organized the Wetaskiwin Sports Association.

The large attendance was most heartening to those who were responsible for the move to effect an organization, particularly so in the fact that a considerable number of the most influential of our citizens were prominent in the assemblage.

Mayor Montgomery presided, and explained that one of the functions of the meeting would be to consider the report of the special committee appointed to thoroughly investigate the feasibility and possibility of staging two or three days of sports and wild carnivals this month. The committee reported unfavorably, but there were those present who championed the proposal, nevertheless, and there was considerable discussion, the idea being eventually abandoned, with the possibility of an afternoon of track and field events being presented on Labor Day, a matter which the executive of the new organization will consider.

It took considerable time to decide just what the name of the new organization would be. There were numerous suggestions which by one fell into the discard, till finally a motion sponsored by J. J. Christopher that the body be called the Wetaskiwin Sports Association was adopted, with the proviso that if it were agreed in the broadening of the scope of the organization a change would be made.

Methods of organization were then discussed and the suggestion was accepted that officers be elected, membership fee be decided upon, and that the Executive draft a constitution and by-laws to govern the organization, subject to ratification at another general meeting in the immediate future.

The following officers were elected: President, Dr. N. A. Johnson. Vice-President, B. W. Bellamy. Secretary, C. B. McMurdo.

Treasurer, C. D. Ennis. It was decided to complete the Executive Committee by the addition of ten other members. Seventeen names were submitted in nomination, and in the battle of ballots the following were selected to assume executive responsibilities.

## GWYNNE STAMPEDE WINNERS

The Gwynne Stampede, which was such a success last week, has almost become history in the minds of some people. However, the management are still working on the accounts and have completed all the results. The following is the complete list of prize winners:

**Monday, July 25**  
Bronk Ride with Saddle—1, Norman Stewart, Colfax, Wash.; 2, divided among Dale Case, Portland, Ore., Jim Irwin, Portland, Ore., Barney Hogg, Wembley, Alta.  
Steer Ride with Saddle—1, Olehan Armstrong, Ponoka; 2, divided among Bob Hill, Jack Hill, Barney Hogg, Dale Case, and Miles Mayhew.

**Tuesday, July 26**  
Bronk Ride with Saddle—1, Norman Stewart; 2, Pongue Kid, Ponoka; 3, divided among Dale Case, and Lorne Thompson, Bushy, Alta.  
Steer Ride with Saddle—1, Stewart Dewar, Dewar Lake, Sask.; 2, Tom Davidson, Battle Lake, Alta.; Bert Traube, Colfax, Wash.

**Wednesday, July 27—Finals**  
Bronk Ride with Saddle—1, Jim Irwin; 2, Cecil Henley; 3, Dale Case.  
Steer Ride with Saddle—1, Miles Mayhew, Colfax, Wash.; 2, Dale Case; 3, Bob Hill, Ponoka, Alta.  
Wild Horse Race—1, Dan Johnson, Hobbema; 2, Pongue Kid; 3, Miles Mayhew.  
Wild Cow Milking Contest—1, Jim Irwin; 2, Dewey Traube; 3, Clark Mason, Wetaskiwin.

**Maverick Race—1, Clark Mason.**  
Ladies' Race—1, Peggy Adams, Ponoka; 2, Mrs. Gotsowki, Hardisty.

**Cowboys' Saddle Race—1, Clark Mason.**  
Ladies' Race, Special—1, Mrs. W. Gotsowki; 2, Peggy Adams.

**Calf Roping—1, Paul Redman, Wetaskiwin; 72 secs.; 2, Clark Mason, 72 1/2 secs.; 3, H. Toffe, Wetaskiwin, 74 1/2 secs.**

**Indian Race—1, Tom Lightfoot; 2, Peter Crane; 3, John Wurt; all of Hobbema.**

Abilities: Messrs. H. J. Montgomery, E. Tasmussen, E. B. Switzer, J. Hurrell, C. W. Niles, H. R. French, J. P. Richards, H. E. Chalmers, G. L. Owen and F. Abousaffy.

The membership fee was set at one dollar per annum, after which the Executive was instructed to take up further details of organization and report back.

Three of the outstanding requirements which command attention were given an airing. The baseball diamond at the exhibition grounds is in a deplorable condition and it was to have baseball next season much work must be done this fall. Several expressed the opinion that a different site should be selected within the grounds. The race track was also referred to as the "bunk" and an endeavor will be made to devise ways and means to place it in proper condition. It was the consensus of opinion that the schools had been deficient in attention to the development of the growing generation along athletic lines, and endeavor will be made to inject a stimulus into track and field athletics among our citizens and their teens. Then hockey came in for a fair share of attention, the matter of the possibilities of a covered rink being introduced in the discussion. It was felt that effort should be made to popularize skating and hockey.

Organization was effected on the assumption that there is crying need in Wetaskiwin for an Association to not necessarily absolutely control directly all forms of athletic endeavor, but to foster the various branches of sport, through the Executive and various sub-committees which will be selected.

It is the intention of the Wetaskiwin Sports Association to stage next year a two or three day celebration of sports and carnival nature such as has never been presented in Central Alberta in many a day, and early preparation will be made to line up a program of attractions that will make Wetaskiwin a mecca for several thousands. It is also the policy of the Association to provide programs of good clean sport for the people of Wetaskiwin and surrounding country on several occasions, not of a stereotyped nature, but with variety being urged as the policy of the Association.

An auspicious start has been made, men who have the ability to put things over are at the helm; it now requires the hearty co-operation of those who are not carrying the heavy load.

The following officers were elected: President, Dr. N. A. Johnson. Vice-President, B. W. Bellamy. Secretary, C. B. McMurdo.

Treasurer, C. D. Ennis. It was decided to complete the Executive Committee by the addition of ten other members. Seventeen names were submitted in nomination, and in the battle of ballots the following were selected to assume executive responsibilities.

## English Tennis Stars Play in Canada

This is the team of English tennis players photographed on board the Cunard liner Ascania from which they disembarked at Quebec last week. Their itinerary takes them from Quebec to Montreal, Ottawa, Toronto, Niagara Falls, Buffalo and New York. From left to right they are: Betty Nuthall, Gwenech R. Storry, Joan Fry, Mrs. D. A. Hill, Erynnaud Harvey, and Major Dudley T. R. Larcombe, Secretary of Wimbledon, manager of the team.

## Bicycle Race Among Labor Day Sports

WETASKIWIN CITIZENS ARE SELECTED AS OFFICIALS OF WESTERN OLYMPIC TRIALS

Mayor H. J. Montgomery and Rev. A. L. Elliott, of this city, have been appointed on the list of officials in charge of the Western Olympic Trials and Field Championships to be held in Edmonton on Monday of next week and have accepted the appointments. This great athletic meet, in which competition will be provided by the cream of talent in Saskatchewan, British Columbia and Alberta, is held by the Alberta Branch of the A.A.U. of C., of which body B. W. Bellamy, of this city, has been president for the past two years. There are about forty officials in charge of the various events, one of which is a resident of Lethbridge, one of Calgary, two of this city and the balance of Edmonton, so Wetaskiwin may well feel highly honored.

**TWO BATS IN SUCCESSION**  
The unusual incident of a player being ordered to take two turns at bat in succession occurred in the first game of a double-header between the Browns and the Yankees the other day.

Short-stop Walter Gerber of the Browns was the player involved. He went to bat in St. Louis' half of the second inning and made the third out by flying to Earl Coombs. When Mickey O'Neill went to the plate to lead off in the first of the third, however, umpire-in-chief Dineen waved the Browns' catcher back to the bench.

"You're out—last inning," declared Dineen, exhibiting the line-up presented to him by Manager Dan Howley, in which O'Neill preceded Gerber in the batting order.

After considerable wrangling and confusion, Dineen ordered that the put-out scored on Gerber be the second he charged against O'Neill and Gerber should go to bat in his proper place. Walter then opened the Browns' bat of the third by rolling out, Lazzeri to Gehrig.

**IS LUCKY LAD AT LEAST**  
In the first leg of his journey to Toronto where he has entered for the 21-mile swimming marathon the latter part of August, Alfred Yoxall, the ambitious 16-year-old boy from Calgary reached Moose Jaw the other day through the generosity of a motor tourist. He expected to get another lift to Winnipeg and from there to Toronto he hopes to travel by cattle train.

Yoxall was promised backing by a Calgary man, but he failed to fulfill the offer so the boy went on by himself. He had only a small amount of cash to pay for a bit of food, and is making his way across the country to test his swimming endurance with the best in the game.

Calgary sports are now raising a fund to help him on his way.

**TWO IN ONE INNINGS**  
Max Carey and Harvey Hendrick, of Brooklyn Robins, accomplished the unique feat of performing two double plays in one inning against the Pittsburgh Pirates the other day.

In the sixth inning, with Lee Mead, pitcher, Arnold Stutz doubled to centre and Carey singled over second, scoring Stutz. Hendrick singled to centre, Carey pulling up at second. Coopers struck out Felix and on the third strike, Carey stole third and Hendrick and a moment later Carey stole home and Hendrick to third.

Official baseball statistics contain no previous record of two double plays by the same men in a single inning.

\*\*\*The Dempsey-Sharkey fight pictures will be shown at the Angus Theatre, August 25, 26 and 27.

The Executive Committee of the Wetaskiwin Sports Association met Tuesday evening with a most representative attendance. It was decided to hold a bicycle race on Labor Day—probably on the Edmonton-Calgary road, to which all junior cyclists will be eligible, so the bids are urged to make active preparation. Details will be announced next week. A committee consisting of Messrs. Bellamy, Chalmers, French and Abousaffy, was appointed to have charge of the Labor day sports, which will include races and jumping events for the juniors (boys and girls) of the city for the championship. The program will be definitely arranged within a few days.

The Association will make endeavors to have preliminary work done in the immediate future to put the race track and baseball diamond in first-class condition. A committee composed of Dr. Johnson and Messrs. Bellamy, McMurdo and Ennis was appointed. It is hoped that arrangements can be made to have the entire arena within the confines of the race track broken up this fall and prepared for seeding, the proposal being to make the entire arena suitable for athletic purposes. A new site may be selected for the baseball diamond.

Messrs. Bellamy and Chalmers were appointed a committee to meet the School Board in the matter of increased athletic activities among the school children, seeking the co-operation of the Board in fostering track and field athletics in particular.

Several other matters were discussed, among which were amateur hockey and boxing, phases of sport which will be given further attention at the next meeting.

**DUCK SHOOTING SEASON TO OPEN ON SEPTEMBER 15**  
Violations of Provisions of Migratory Birds Convention Act Means Imprisonment or Fine—Fifty Ducks Daily the Limit

Open season in Alberta for ducks, geese, coots, Wilson's or jack snipe will extend from September 15 to December 14, according to a summary of the Migratory Birds Convention Act just received from J. B. Barkin, commissioner of the Canadian national parks. Both dates are inclusive. The law concerns each person who hunts migratory birds. It is based upon the treaty made with the United States.

Daily bag limits in Alberta are: ducks, 50 in one day and not more than 200 of all kinds in a season; geese, 15; coots, 25; Wilson's snipe, 25.

The use of automatic (pump loaded), semi or machine guns, or battery, or any gun larger than number 10 gauge, is prohibited, and the use of any airplane, power boat, sail boat, or night light, and shooting from any horse-drawn or motor vehicle is forbidden.

The shooting of migratory game birds earlier than one hour before sunrise or later than one hour after sunset is prohibited.

Every person who violates any provision of this act or any regulation shall, for each offence, be liable upon summary conviction, to a fine of not more than \$200 and not less than \$10, or to imprisonment for a term not exceeding six months or to both fine and imprisonment.

**TEN YEARS IN BIG SHOW**  
Walter Johnson this week rounded out a fifth of a century as a major league pitcher—and he has served only one club, the Washington Senators. He took the mound for the first time in the big show twenty years ago, against Detroit.

**WALTER TRAVIS IS DEAD**  
Walter J. Travis, widely known golfer and former holder of the British open title, died in Denver on Sunday.

CANVASSERS ARE NOW ROUNDING UP MEMBERS FOR SPORTS ASSOCIATION

At Tuesday night's meeting of the executive of the Wetaskiwin Sports Association, an active canvass for members was decided upon and captains to handle the drive were selected as follows, for the respective districts: J. F. Richards, West Railway street; F. Abousaffy, East Railway street and one block of Peace street; East; C. D. Ennis, Peace street west; H. R. French, south of Peace street west; H. E. Chalmers, north of Peace street west; Dr. Johnson, balance of East side.

The Association is away to a flying start, but requires the financial co-operation of the citizens, and with the fee for membership being very nominal, it is hoped that hundreds of members will link up with the organization.

**CAMROSE HAS DANDY DIAMOND**  
Several from Wetaskiwin took in the baseball tournament in Camrose last week, and came home wondering just what visiting ball tossers would say about this city if called upon to participate in a tournament on the local bog. They sure have a sweet diamond in Camrose, with every facility for spectators as well, which nevertheless provides against the encroachment of fans and families onto the playing field. This is a provision that commands attention when improvements are made here.

**CORRECTION**  
In the council minutes of last week an error occurred in the paragraph concerning the auto arrears of Mr. McQueen, of Calgary. Owing to oversight on the part of the proof reader the name was mentioned as Rex, McQueen and again as Mr. McQueen. This is not Rex McQueen of this city.

**Miscellaneous**  
THE WETASKIWIN FEED STORE announces that it is now open to give the best of service to the farmers.

## Gossip of the Motor World

Rubber is going to take the shocks and vibrations out of motoring. It is already being used for mountings of engines on some auto chassis, and for mountings on springs. It is being tried out in steering wheel hubs, as bushings at bearing surfaces and may eventually find its place in every point of contact on the automobile where there might be any suspicion of discomfort.

We still think of rubber, in terms of tires. Baffles tires make for comfort. Yet rubber engineers have gone much further. Their aspirations are for the replacement of practically all metal joints with rubber. And they have already begun their work of replacement.

The advantages of rubber, in general, are its property of elasticity, its strength, and especially its ability to absorb energy. It is therefore an ideal vibration dampener and shock absorber. It needs no lubrication, as metal joints do, and doesn't wear as easily.

These advantages were discovered in a long series of experiments undertaken by the United States Rubber Company, under the direction of Walter C. Keys, chief engineer of the automotive development department.

As a result of these tests the company has developed a spring mounting, an engine block mounting and other mountings for the heavier parts of the automobile. It is going farther in the development of rubber bushings, especially for motors, and rubber inserts in steering wheel hubs providing non-metallic insulation for the wheel.

Keys lists the following advantages for rubber mountings:

1. Lubrication is unnecessary.
2. Shock wear and rattles are eliminated.
3. Shock absorbers are unnecessary.
4. Life of springs is enhanced.
5. Shimmy has been reduced in many cases.
6. It is less costly.
7. It provides fewer parts.

After the vacation, the automobile needs attention. Usually it has been driven hard, for hundreds and even thousands of miles, with only the care during the

### Was Troubled With INDIGESTION For Last Two Years

Mr. H. C. Harvey, Novar, Ont., writes:—"I have been troubled with indigestion for the last two years. I have taken every thing I have seen advertised, but have never had any of them do me as much good as

I have taken six bottles and haven't had an attack since. It is the finest medicine you can take for the blood."

Manufactured only by The T. T. Miller Co., Limited, Toronto, Ont.

### Cook's Regulating Compound

A safe, reliable, regulating compound, for the regulation of the bowels. It is a pure, natural, and harmless substance. It is sold by all druggists, and is recommended by the highest medical authorities. Price, 25c per bottle. Address: THE COOK MEDICINE CO., 1200 BROADWAY, NEW YORK, N.Y.

with the heavy oil or grease. In summer grease is the lubricant used. For winter, it should be a heavy oil, because grease might freeze too quickly.

The rear transmission is important, especially after a long run in summer. The grease is thinned out so that it seeps through the loosened housing, and even through the axle tubes or brakes and on to the wheels.

The entire rear axle and brake mechanism in this event needs not only tightening, but cleaning before the new grease is put in. The brake bands get oil soaked and slip, if the packing has become loose.

The remedy might entail new packing to prevent further leaks, but generally cleaning of the brake bands and tightening of the housing will cure this.

The kind of oil or grease used in the rear end depends on the type of car. The instructions of the manufacturer should be followed in this case, as in all others for that matter.

Usually, however, heavy oil is placed in the rear axle housing. A steady cylinder oil, and perhaps an addition of medium grease, make a good combination.

Don't loan your car for joy-riding parties unless you wish to take the responsibility of what may happen, accidentally or otherwise.

Don't forget to dim your lights when approaching another car. It is also best to drive through cities and towns with dimmed lights.

Don't drive over or across sidewalks or boulevards.

## Provincial Weekly News Bulletin

(Issued by Publicity Commissioner, Government of Alberta, Edmonton.)

July 29, 1927  
Alberta Officials Attend Poultry Congress

Alberta was represented at the World's Poultry Congress which opened at Ottawa on Wednesday by Hon. George Henry, Minister of Agriculture and J. H. Hare, provincial poultry commissioner. Assisting Mr. Hare with the five birds exhibit from the province was P. J. Timms of Calgary, with a comprehensive display of agricultural products from Alberta was in charge of W. D. Morrison.

Beaver Trapping Banned in North—It has been announced by the Provincial Game Branch that no trapping of beaver in Alberta north of township 69 will be permitted during the coming season, and that the closed season for beaver which has been enforced in this area for the past 20 years will continue for the coming fall and winter as the beaver supply in the province has been steadily growing. South of the line of township 69 permits will be issued as usual in cases where found desirable through damage to farm property by local causes of beaver.

Last shipment of 218 buffalo left the Wainwright Park on Tuesday, making a total of 1940 animals to be moved to their new northern home this season. Owing to the rapid increase in the number of buffalo in the park at Wainwright, shipments to the north in three years have totalled 5,585 head, and of this number only six failed to stand the long trip by rail and water to their new domain.

Fire Protection and Insurance—Attention is called by Henry Bruce, provincial fire commissioner, to the fact that the work of this branch is entirely separate from that of the provincial department of insurance, although some confusion appears to exist in the public mind as to the type of work handled by each body. Officials of the fire commissioner's branch visit every town and village in the province at least once a year. Voluntary fire brigades are organized and municipal authorities are assisted in the enforcement of their fire-preven-

tion by-laws. Buildings are inspected and orders given where necessary for the remedying of conditions from a fire prevention standpoint, and the office is maintained solely for the protection of the public and the prevention of the enormous fire waste of the province.

The department of insurance, on the other hand, is empowered by the Alberta Insurance Act to exercise control over all classes doing business in the province and to license and control these companies and their agents and insurance adjusters. Difficulties arising between adjusters and insured persons under losses of any class are frequently referred to the department for investigation and the interests of the public are safeguarded in every case.

### Alberta Death Rate Low

Alberta has the third lowest death rate among the provinces of the Dominion, according to the vital statistics for 1926. The rates by provinces are as follows: Saskatchewan 7.4 per thousand; Manitoba 8.3; Alberta 5.5; British Columbia 9.6; Prince Edward Island 10.6; Ontario 11.4; Nova Scotia 11.8; New Brunswick 12.2 and Quebec

14.5. The rate in Alberta, it is stated, is increased to some extent by the death of tubercular patients who come to this province for their health.

### Alberta Coal Exhibit for Toronto

A prominent position in the Canada building has been allotted for the Alberta coal display during the Canadian National Exhibition at Toronto, August 27 to September 10, according to word received by Howard Stubbart, Alberta Trade Commissioner. This exhibit of domestic coal is being shown by the Alberta Government and the Canadian coal publicity commission.

### Spillers' Mill to Operate Soon

Spillers' Canadian Milling Co., Ltd., will begin operation of its big new mill at Calgary early in August. It is announced by W. A. Vernon, a director of Spillers' Milling and Associated Industries, Ltd., London, England, who is now on a business trip to Western Canada. The Calgary mill will have an installed capacity of 2,000 barrels of flour per day and will be capable of expansion as trade warrants.

### Motor Roads Marked for Tourists

Directions for tourists in the southern part of the province have been improved this season by the work of the Alberta Development Board (Southern Section). New markings have been placed on the Blue trail between Banff and the International Boundary, the Yellow trail between Calgary and Walsh, the Red trail between Calgary and Abasak, and the Sunshine trail between Calgary and Red Deer. This organization has also distributed a large number of maps showing the best routes to Alberta's scenic spots, where many tourists are holidaying this summer.

### Cairn Marks Site of Old Police Post

Unveiling of the cairn in the grounds of the Fort Saskatchewan Jail, which marks the site of the original buildings erected in October 1874, by Col. W. D. Jarvis and 29 non-commissioned officers and men of the first party of Northwest Mounted Police to enter the district was carried out on Sunday, July 24, by Major-General Griesbach in the presence of a large gathering of old-time members of the famous force and citizens of the town.

### MAY MAKE PAPER FROM CORN STALKS

Washington, D.C.—The Bureau of Standards of the Department of Commerce is getting ready to carry on important experiments in paper making. Those who are in touch with these proposed experiments feel they are likely to affect profoundly the business of manufacture of paper in Canada and the United States.

Although little attention was given it in the recent session, an appropriation was allowed by Congress under which the Bureau of Standards is authorized and required to set up a plant for experiments as to the commercial feasibility of making paper out of waste material. This plant will be set up in the corn belt and will take up,

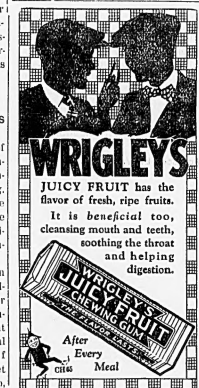

among other things, the manufacture of paper from corn stalks.

Corn producers in the Middle West are anxiously awaiting results of the experiments. The question of whether paper can be successfully made is not really involved. It has already been made in a variety of grades of it, including print paper from corn stalks. The real question which calls for solution and as to which experiments will be conducted by experts is whether it can be made cheaply enough to make it feasible to compete with paper made from pulp wood and other materials now commonly used. Expert chemists at Iowa State College of Agriculture and the Mechanic Arts have already demonstrated that paper can be made from corn stalks and samples were exhibited here recently to members of Congress.

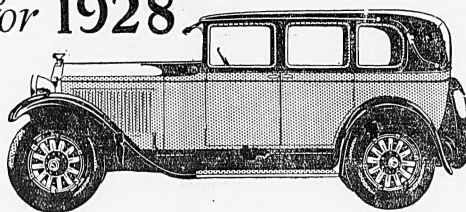

The economic troubles of the corn belt and the demand for a wider market for corn are exerting a strong pressure on the Department of Commerce, under which is the Bureau of Standards, to find practicable commercial ways of making paper from corn stalks. If the experiments succeed, it is asserted that a revolution in the paper business will follow. In any event, the setting up of the proposed plant, which will be located in the heart of the corn belt, probably in Iowa, will be watched with intense interest alike by corn producers, paper manufacturers and consumers of paper.

### HAS NARROW ESCAPE

Three rivers, Que, July 28.—Joseph Lacombe, 38, St. Etienne Des Ores, escaped death when he was buried by sand which overflowed in the well he was repairing. After five hours' work he was pulled out alive, having been covered all this time by about 10 feet of sand in a well 50 feet deep. Lacombe's young son of 15 years called for help and then went down the well himself to save his father.

## McLAUGHLIN-BUICK for 1928

Thrilling the world again with McLaughlin-Buick value

Beauty

Power

GET-AWAY

Luxury

Color

Smartness

Dashing new Bodies by Fisher . . . swung smartly low without any loss of head-room or road-clearance and without resort to smaller wheels . . . fleet, slender radiator lines . . . style and beauty equalled only by the finest custom creations.

Power to pass on any hill . . . power to conquer the roughest going . . . power to maintain high speeds hour after hour . . . resulting from brilliant advancements in McLaughlin-Buick's famous valve-in-head six-cylinder engine . . . vibrationless beyond belief.

Getaway like an arrow from a bow . . . an exhilarating rush of power when the signal changes . . . unmatched flexibility in traffic . . . and the effortless speed of flying birds—when you're out on the open road.

Form-fitting tailored seat cushions as restful as an easy chair . . . hydraulic shock absorbers front and rear, providing pillowed riding ease over any road . . . and interiors resembling exquisite drawing rooms in luxury of fittings and appointments.

Colors unrivalled by the rainbow . . . exteriors finished in rich new Duco combinations . . . Harmonized interiors—the new vogue in closed car decoration . . . Walls, ceilings, seat-coverings and carpets all blending into one perfect ensemble.

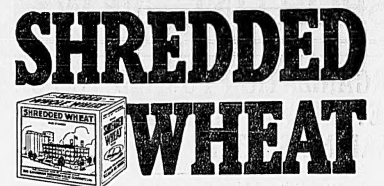

Heads turn in admiring tribute whenever a McLaughlin-Buick for 1928 flashes by . . . for it is richly endowed with that rare quality . . . that elusive touch of personality . . . that indefinable characteristic called "smartness."

## MILLET LOCAL NEWS

Mr. E. A. Spooner spent the week-end at home.

Scott's Meat Market is receiving a fresh coat of paint.

Mr. Reed, of Loughheed, was a visitor in town over the week-end.

Mr. Kenneth Sporer is gradually recovering from a fractured wrist.

What's the matter with baseball? Haven't had a game for three weeks.

Miss McIntyre, of Edmonton, was the guest of Miss Little Chelson last week.

Little Miss Elizabeth Farling spent a few days the guest of Miss Madge Plant.

Miss Elsie Cotterell is spending a few days' vacation with Miss Gollie Pogue.

A. H. Parker shipped a carload of cattle and hogs to Edmonton on Wednesday.

Messrs. Walter Miller and Victor Nordquist paid a visit to Red Deer on Sunday.

Miss Elsie Blades is on duty again at the U.F.A. during Mr. Benham's absence.

Mrs. John West was confined to the house through illness for a few days last week.

Miss Mona Cotterell is taking a few holidays this week at her home at Larch Tree.

Mr. L. M. Jenks has been a patient at the Royal Alexandra Hospital for the past week.

Mr. Stuart McGibbon went to Valinwright on Monday, to relieve for a week at the P. Burns Co. plant.

Mr. and Mrs. Bruce Kerr and Miss Dorothy, made a short visit with Mr. J. R. K. Graham on Tuesday.

Mrs. A. Johnson, of Edmonton, with her family, is spending a week at the home of her parents, Mr. and Mrs. C. A. Palmer.

Mr. and Mrs. E. Morse motored to Stony Plain on Saturday and returned Sunday evening. Maybe Ed. has a new fish story.

Mr. and Mrs. H. Mathers and family, of Edmonton, also spent the week-end at the home of Mrs. Mathers's brother, Mr. A. Lind.

Miss Margaret MacDonald received the glad word a few days ago that she had been successful in passing her Grade XII examination.

Mr. and Mrs. Stevens and Miss Robbins, of Calgary, have been guests at the home of Mr. and Mrs. A. H. Parker for the past week.

Messrs. J. H. Stenham and L. J. Ayers attended the conference of the Latter Day Saints held at Ribstone last week, remaining over Sunday.

Mrs. A. Lind, Master Albert, and Miss Winnie, left Sunday evening to spend a few days in Edmonton with Mr. and Mrs. H. Mathers and old-time friends.

We are pleased to hear of the success of the following students at the Departmental Examinations: Misses Elsie Cotterell, Edith Haslip, Jean Ross, Eleanor Kerr, and no doubt many next week.

Mr. and Mrs. A. N. Stark, and Misses Irma, Fay Miss Gladys Dobbins, of Pratt, Kansas, and Miss Addie Prescott, of Cold Spring, Colorado, are visiting at the home of Mr. and Mrs. R. J. Shaw.

Mrs. Kramer, with Miss Ruth and Master Tedford, spent the week-end with her sister and brothers, Mrs. Winifred Ross and Thompson Bros. Ruth and Tedford are remaining for a week's vacation.

Mr. and Mrs. W. L. Campbell and family, of Viking, made a call on Mr. Stenham at the Reg Store on Saturday evening, on their return trip from Banff, where they have been holidaying for a couple of weeks.

Mr. H. S. Bruce, manager of the Canadian Bank of Commerce, Moffort, Saskatchewan, and family, went through the south to Vancouver and on the return trip spent the week-end with his sister, Mrs. A. Lind.

Mr. and Mrs. E. L. Morse, Mr. and Mrs. Orville Wolf, and Miss Leona Morse, of Millet, and Mr. and Mrs. E. A. Browne, Mr. and Mrs. Edwin Morse, and Mr. Gordon Thomson, of Edmonton, spent Sunday at the home of Mr. and Mrs. C. E. Snow, near Stony Plain. They all visited Edmonton Beach in the afternoon.

Born—At Millet, to Mr. and Mrs. Ed. Green, a son.

Trade with the merchants who advertise in this paper.

MOST ENJOYABLE TIME WAS HAD

The group of W.I. girls who have been camping at the north end of Pigeon Lake, returned home after a very enjoyable trip, only having to get out and push the car out of mud holes fifteen times, a job which they heartily enjoyed, as each time they were only knee deep in water, and the cancellers who are responsible for the upkeep of these roads should be heartily congratulated. The above picture will give prospective campers an idea of what is before them when they start for Pigeon Lake—unless immediate road work is done—as this photo was taken in one of the best pieces of road on the way out.—Yours truly, "Stuck-in-the-Mud."

## THINK IT OVER!

Nothing would be done at all if a man waited till he could do it so well that no one could find fault with it.—John Henry Newman, *Get Busy and Do Your Best*.

## HIGH CLASS JERSEYS FOR ADJACENT DISTRICTS

A car of Jerseys was recently shipped West from Brampton, Ontario, including animals from the herds of Joseph Dobson and B. H. Hill & Son. Also some grade breeders were represented at the Jersey sale held at Summerland, B.C., recently. W. J. Pickard, of Wetaskiwin, got two, a two-year-old heifer and a bull calf, from B. H. Hill & Son. The heifer is in calf to Jersey Volunteer, the premier herd sire in the Hill & Son herd. The calf is by Forward, the bull which was sold last year at the Royal for \$20,000. This bull sired the cows which were first and second in the aged cow class at the Royal last year, and both grand champions, and he also won the get of the class. So the new calf which was shipped to Mr. Pickard has the best of breeding behind him.

A. T. Breen, Hay Lakes, Alberta, got a six-month-old bull calf from B. H. Hill & Son. This calf is from a daughter of Combination Premier, the cow with a record of over 12,000 pounds of milk and 687 pounds of butter-fat, as well as a good show cow. Combination Premier sold for \$13,500 when he was thirteen years old. The calf is sired by a son of Sybil's Gumbage, a bull that sold for \$65,000.—Farm and Ranch Review.

When buying a used car.

1. See that the radiator does not leak.

2. See that the radiator cools engine properly.

3. Examine metal parts of engine for breaks.

4. Start engine and listen for knocks.

5. Try transmission in all gears and see that it works smoothly.

6. Listen for grind of worn gears in differential.

7. Test wheels for loose spokes (they cause many accidents).

8. Test battery and see that it takes the charge properly.

9. See that the wiring is not defective, it may cause a fire.

10. Take no excuse, such as no water for radiator, no oil or gas for not having the engine started. It may save much expense later on. Also, be sure you are getting it for about half what you think it may be worth. Then you are probably getting it about right. There are always countless small things to be repaired when you start operating it. Do not put too much faith in the miles it has run as a car may have only run five hundred miles and be in worse shape than one which has run five thousand and proper care.—A Mechanic.

Diarrhoea Summer Complaint HE ALWAYS USES

DEFOWLERS  
SWEET  
STRAWBERRY

Mr. T. F. McGregor, McLennan, Alta., writes:—"Over forty years ago my mother used to give us Dr. Fowler's Extract of Wild Strawberry for diarrhoea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute  
This valuable preparation has been on the market for the past 80 years; put up only by The T. Millburn Co., Limited, Toronto, Ont.

## MILLET WOMEN'S INSTITUTE MONTHLY REPORT

A very joyful meeting of the Institute of Millet, was held at Mrs. Rodney's, with 15 members in it.

In order to the Roll Call, each member her "God Save our King."

The kind of sandwiches she made best, in the most unusual way.

Mrs. Rowley's report of "current events, was a very interesting one. Of news and jokes and everything, creating lots of fun.

The next was Mrs. Marr's report, the story of Confederation, it certainly made you realize, what those men did for our nation.

All the members then stood up, and loyally did sing.

For the meeting it was ended, as they sang "God Save our King."

There is one thing that I'd like to say, this was after our meeting.

Our hostesses did not forget, that humans lived by eating.

There were sandwiches, and tea of course.

And delicious cakes of every sort. If we'd stayed there long I'm sure we'd have.

But we have to fast now, till the 10th of August.

BABY CLINIC FOR JULY IS PLAN OF MILLET INSTITUTE

The Millet Women's Institute spent a very pleasant hour on Tuesday, July 19, at the home of Mrs. Carl Rodney, where their monthly meeting was held with 20 members present. Plans were made for a baby clinic to be put on by the department of public health in the Millet Community hall on August 15.

Mrs. Rowley gave an interesting address on current events, and Mrs. H. Marr told the story of Confederation.

Tea was served by the hostesses assisted by Mrs. G. R. Rogers and Mrs. Ferguson.

The next meeting is to be held at the home of Mrs. Von Arx—Edmonton Journal.

OLD AGE PENSIONS APPROVED

The following will be good news: The Canadian Senate has approved the Old Age Pension scheme, and it is now up to the provinces to bring it into effect. The pension provides a maximum allowance of \$240 a year for a British subject, seventy years of age, who has no private income over \$250 a year. The Province and the Dominion each contribute one half to the expense of carrying out the scheme.—Goward.

JUST FOR FUN

Again, it is demonstrated that while people were poking fun at Henry Ford's car, he was getting real amusement out of an adding machine.—Wichita Eagle.

In Jerusalem the telephone subscribers can get the wrong number in 11 different languages.—Detroit Free Press.

For the dental association we suggest the slogan: "Be true to your teeth or they will be false to you."—Salt Lake Telegram.

There doesn't seem to be much trouble meeting expense—one meets them everywhere.—Wall Street Journal.

If the Marines can protect American property in Nicaragua, why not try them in Chicago?—Stanford Advocate.

McNash probably lived to a ripe old age just to spite some girl who married him for his money.—Cornell Widow.

A young college fellow wrote to his son:—"Promptly his father answered:—How sad, too bad, your dad."—Boston Transcript.

COMMONSENSE PARAGRAPHS

Friends like money are sometimes nearest when most needed.

Cooperation should be an agreement not an argument.

If you have a good opinion of yourself keep it to yourself.

There is only one place you can live a happy life, and that is inside your income.

Zam-Buk  
FOR THE SKIN!

Don't Cuss!  
Call us!

THERE'S NO NEED  
FOR THAT  
WORRIED LOOK  
ON YOUR FACE!

What's bothering you? Have you a car you want to sell? Are you making fruitless search for another job? Or possibly it's the other way about... you need help? Can't you get a room in which to rest your weary bones? Perhaps the cook has left or the one you've got don't measure up to the standard?

Tell you what to do. Invest a few cents in a Times Classified Ad, and folks'll be phoning you up or dropping around to see you within a few hours after we go to press.

Instead of working up a "raw meat" disposition should things go wrong, take the nearest telephone and call us up with copy for a "Classified."

Chevrolet and Oakland Dealer  
PHONE 123  
For a Demonstration on New or Used CarsPOOL  
ANNOUNCEMENT

The Mutual Creamery Co. (Wetaskiwin Branch of the Woodland Dairy, Edmonton), advertises that it is handling Pool cream. The Alberta Dairy Pool has made no arrangement with the above Company for handling Pool Cream or Milk in Wetaskiwin.

Although several creameries opposed to the Pool are trying to break the producers' organization, few have been bold enough to openly admit it.

Monopolies tend to eliminate competition. They reduce manufacturing costs. They attempt to control prices, and they earn the largest profits.

As producers, we have just as much right to form a so-called monopoly to reduce costs of manufacturing, to try to control prices of the products we sell, and to earn a larger profit for ourselves. A limited amount of feed will earn more profit when fed to one good cow than when fed to two cows. That's common sense. Creameries are like cows. A certain amount of cream fed to one creamery will produce more profit than when fed to two creameries. That's the same kind of common sense. That is the reason the Pool is only operating one creamery at Wetaskiwin, namely, the Wetaskiwin Creamery Co.

If you want increased profits, you must reduce your overhead. That's common sense, too. Think it over.

KEYS LOST—In Wetaskiwin on August 2nd. Reward by leaving same at Times Office. 20-11

ON VERGE OF DISASTER

Toronto, Ont., July 29.—Present day civilization is on the verge of disaster, according to Matthew Hewlett, of Grimsby, England, a feature speaker at the convention of the International Bible Students in Exhibition Park here. God was just waiting until man realized that he was insufficient in himself. Then God would bring in a new order of things.

## LONE RIDGE

A most successful sewing demonstration was held in the Lone Ridge Hall on July 29 and 30, conducted by Miss Money, of the Home Bureau Service of the Department of Agriculture. The demonstrations were well attended and were much appreciated by the ladies of the Lone Ridge district, who received much useful information concerning sewing, cutting, drafting, patterns, etc. This is the second time that Miss Money has visited the district.

A very successful dance was held in the Lone Ridge hall on Friday evening last in aid of Roy Nelson, who was injured at the picnic recently. Mr. Hugo Carlson, of Anaconda, Montana, very kindly and ably rendered the music for the occasion. The community wishes to extend its thanks to Mr. Carlson for the able and voluntary way in which he has assisted the cause.

An auto accident occurred on Saturday evening, when Mr. Maxwell unavailably ran into the car of Miss Walker. Fortunately no one was hurt. Both cars were damaged.

Crops in this district are looking splendid. Given a continuation of this weather we will reap one of the best harvests on record.

## MALMO SOUTH

(Too late for last week)

Mr. J. A. Pennis is busily engaged in handling lumber these days, to be used in the construction of a fine new residence.

No loss from hail has been reported in this part of the district so far, although several storms have passed too close for comfort.

Miss Ella Smaltz, of Calumet and Miss Alma Sundel, of Bushaw, are spending part of their holidays at the home of Mr. and Mrs. G. Tennis.

Mr. and Mrs. J. Dalglish, and small daughter, who have spent several weeks at the home of Mr. and Mrs. John Tennis, Sr., will leave shortly for their home at Acme.

Mr. and Mrs. J. Dalglish, who moved from Detroit, Mich., spent Sunday with Mr. and Mrs. G. Tennis.

Swimming has certainly proven popular at Red Deer Lake so far, and the fifth successful weiner roast was brought to a close at midnight Sunday.

Certain persons who may find the hilarity a bit trying should remember that we are only young once. The gondola eventually made its appearance also. The reason? Ask Sue.

Mr. G. Tennis has improved the appearance of his home by the addition of a sun parlor and alcove.

Miss Clara Albers, who attended high school at Bushaw the past term, is at present holidaying at her home.

A lovely time was spent at the home of Mrs. Albert Schultz on Friday last, when she entertained in honor of her sister-in-law of Regina, who, accompanied by her two children, is on a holiday there.

The home of Mr. and Mrs. John Tennis, Sr., was the scene of a family reunion on Sunday last, when all their children and grand-children gathered for the day. The ones from a distance were: Mr. and Mrs. David Head, (nee Anna Pennis) and three sons, of Bushaw; and Mr. and Mrs. Tennis and Meena, of Acme.

We are glad to have Rev. Otto Eklund with us again after an absence of five years spent as pastor of the Lutheran Church at Vancouver, which position he resigned recently. Rev. Eklund conducted services at Svea Lutheran church on Sunday last.

\*\*\*Ken Maynard and his horse Tarzan will be seen in "The Land Beyond The Law" at the Angus Theatre on Friday and Saturday of this week.

BINDER  
TWINE!

We are glad to announce that TWO SUCCESSIVE REDUCTIONS have been made in Twine Prices since the opening prices were decided on last March. At present there is a spread of \$1.75 between the 600 ft. and the 550 ft. As the bulk of the twine sold in this district is the 600 ft., it is well to note that with this unusual spread the 550 ft. twine comes about 50c per hundred pounds cheaper than the 600 ft. this year, and will no doubt mean increased sales for the 550 ft. Twine.
